BUSINESS OVERVIEW

Chris Schutte
Chief Executive Officer

KEY FINANCIAL INDICATORS

■ Revenue @ R20,5 billion

■ Profit before interest and tax @ R1 125 million

■ Profit for the period @ R753 million

■ Headline earnings per share @ 1 920 cents

Gearing / debt levels cleared

Final dividend per share declared of 520 cents

SALIENT POINTS

- Broiler day-old chick costs increased following contingency measures to mitigate the impact of bird flu in 2023
- Poultry feeding costs decreased significantly with reduced levels of feed consumed against the comparable period which suffered under "big birds" given the effects of the F2023 load shedding
- Broiler live cost decreased for the year under review assisted by lower feed raw material input costs (feed at 65% of the live cost)
- On-farm broiler performances improved significantly over the comparable period, surpassing historical levels
- No incidents of bird flu recorded by Astral since October 2023

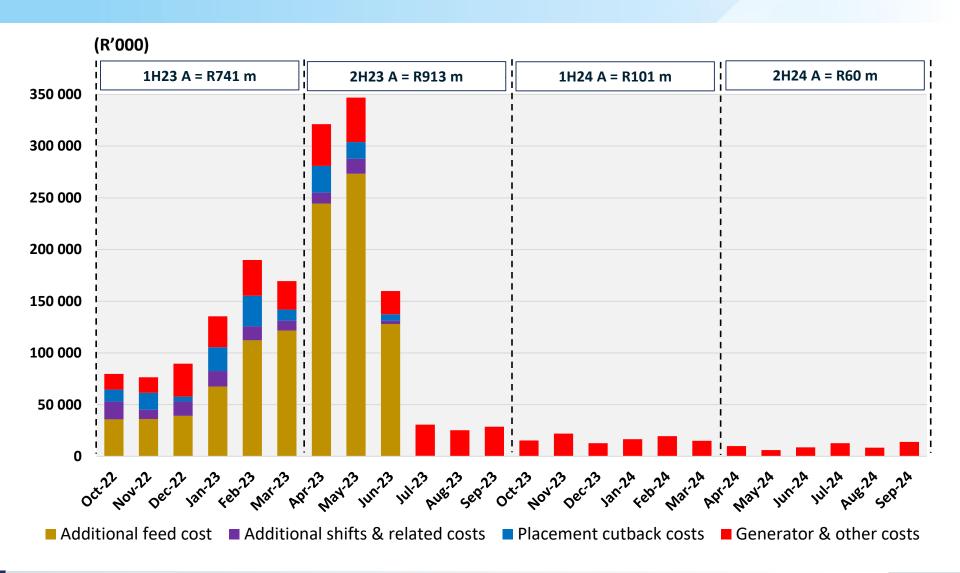

SALIENT POINTS

- Broiler placement cutbacks were implemented, in an effort to better balance
 Astral's supply with demand, this on the back of a weak macro-economic
 environment characterised by constrained consumer spending
- Poultry sales volumes increased on sales out of stock reducing finished good stock levels, supported by an improvement in the product mix
- Poultry selling prices improved year-on-year (on avg.) following excessive discounting in F2023, however recent months have seen substantial price deflation
- Positive broiler margins are reported for the year under review, however remain extremely thin on extensive retail promotional activity
- Debt levels cleared as profitability returned to the business, with focus on working capital requirements and normalised capital expenditure

RSA MAIZE PRODUCTION & YIELD

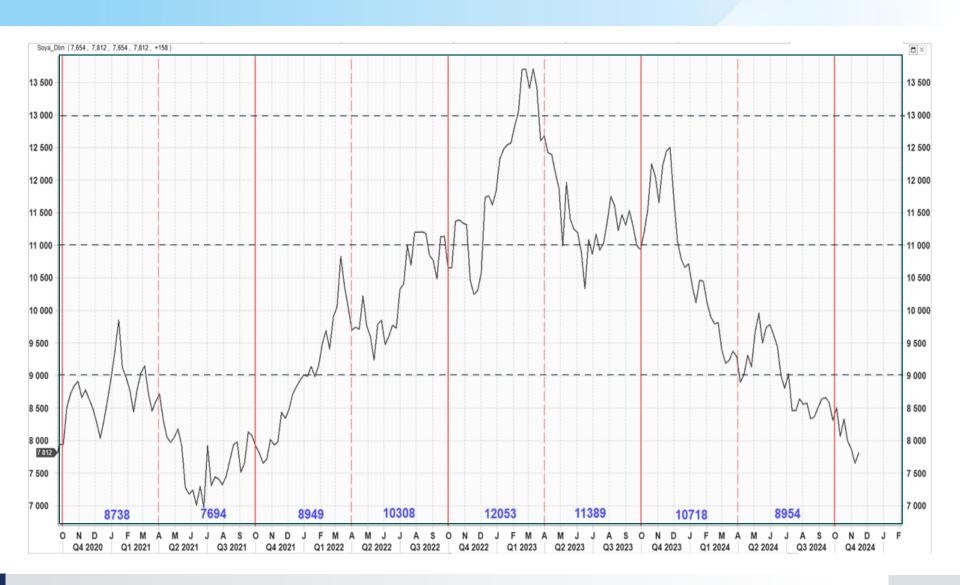

SAFEX YELLOW MAIZE PRICE

DURBAN SOYA MEAL PRICE

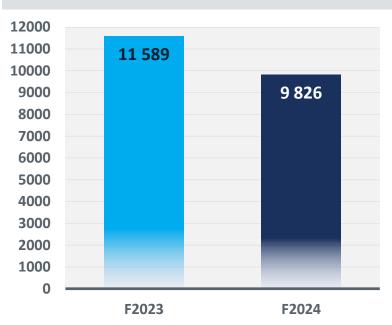

Gary Arnold
Group Chief Operating Officer

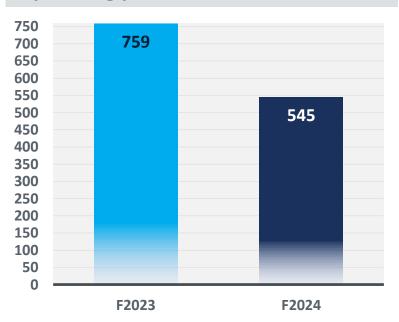

Revenue - R million

Revenue down 15.2%

- Raw material costs down
- Average selling prices down 4.8%
- Sales volumes down 11.0%

Operating profit - R million

Operating profit down 28.3%

- Net margin 5.5% (F2023: 6.5%)
- Below inflation increase in expenses
- Rand per ton margins decreased

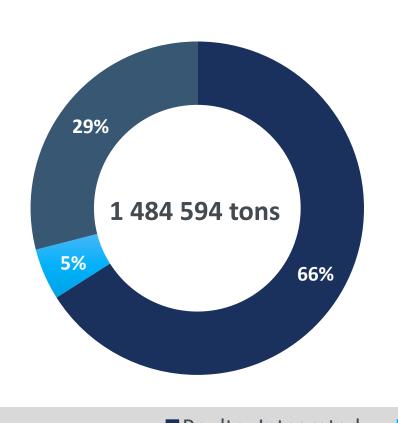

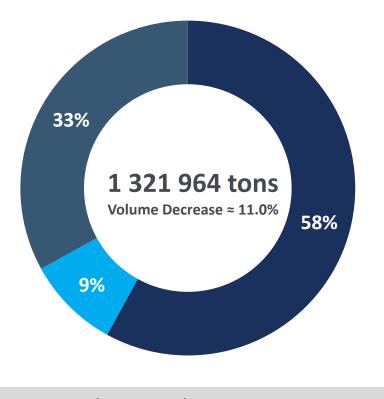

- SAFEX yellow maize price decreased for the year under review FY2024 avg. R3 988 per ton (F2023: R4 205) down R217 per ton (decrease of 5.4%)
- DBN soya meal price decreased for the year under review FY2024 avg. R9 820 per ton (F2023: R11 721) down R1 901 per ton (decrease of 16.2%)
- Internal feed sales volumes decreased by 19.5% due to lower feed consumption as broiler age and weight normalised following the "big bird era" as a result of load shedding, and lower parent stock numbers following bird flu in 2023
- External feed sales volumes increased by 4.7% due to higher sales into the beef and pork production livestock sectors
- **Expenses well controlled** across the division despite the lower feed volumes
- The average net margin decreased (Rand per ton) for the period under review

Sales Mix – F2023

Sales Mix - F2024

POULTRY DIVISION

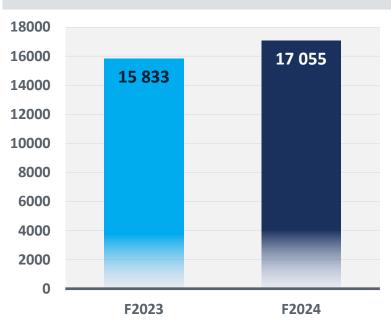

Gary Arnold
Group Chief Operating Officer

POULTRY DIVISION - CONSOLIDATED

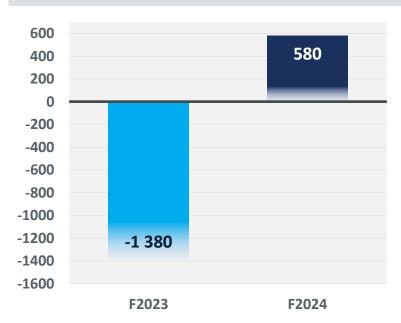

Revenue - R million

Revenue up 7.7%

- Broiler sales volumes up 4.6%
- Broiler sales realisations up 5.2%
- Breeder revenue up 18.9%

Operating profit - R million

Operating profit **up 142.1%**

- Net margin 3.4% (F2023: -8.7%)
- Avg. broiler feed price down by 2.1%
- Higher day-old chick cost on bird flu 2023

Ast

POULTRY DIVISION - COMMERCIAL

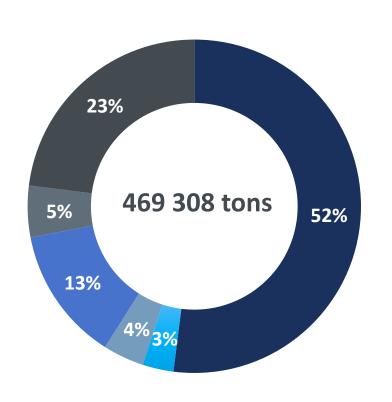

- Broiler sales volumes increased on better demand for Astral's finished goods due to an improvement in the product basket, which suffered in the comparable period due to Astral processing "big birds" brought about by a backlog in the slaughter programme as a result of load shedding
- **Production cutbacks were implemented** in an effort to balance supply with demand and frozen chicken stock levels, as consumer spending remained under pressure (F2022 5.8 million bpw & F2024 5.4 million bpw)
- **Broiler margin improved to 1.3%** for the year under review from -9.7% in F2023 as the cost base normalised following the significant impact of load shedding and bird flu in 2023
- Operating expenses lower as the significant costs in feed and additional shifts due to the high stages of load shedding in 2023 were not repeated (generator costs in F2024 @ R151 million)
- Finished good stock levels at 30 September substantially lower than prior year end

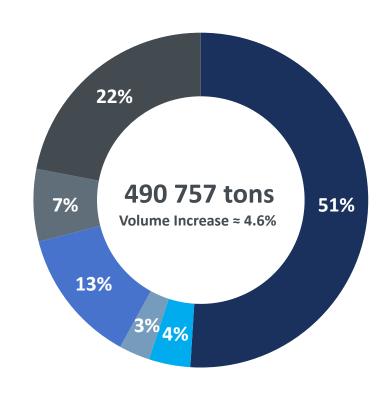

POULTRY DIVISION - COMMERCIAL

Sales Mix - F2023

Sales Mix - F2024

■ IQF Mixed Portions ■ IQF Single Portions ■ Frozen ■ Fresh ■ Value Added ■ Tertiary

POULTRY DIVISION

Gary Arnold
Group Chief Operating Officer

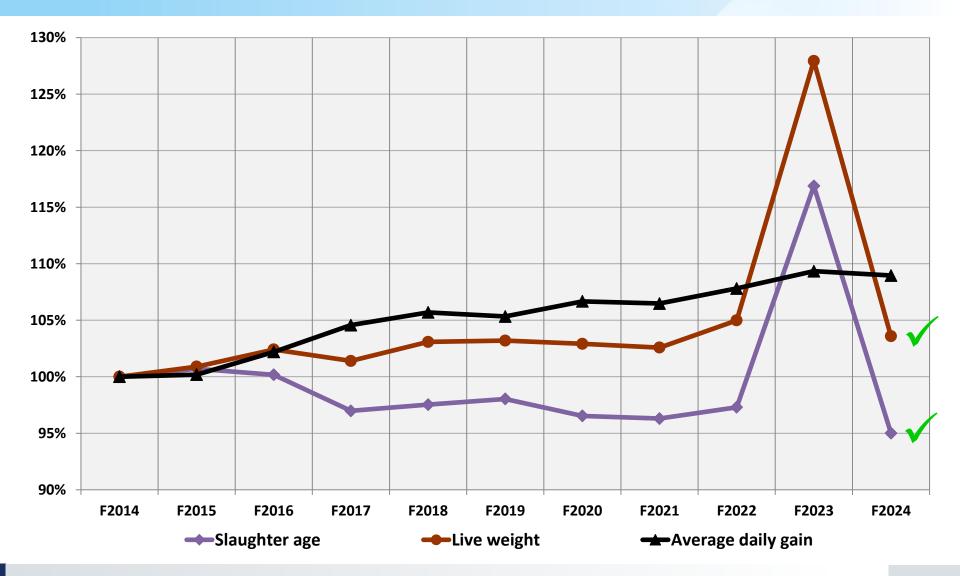

POULTRY DIVISION - AGRICULTURE

- Parent stock sales decreased slightly as customers cancelled or moved placements due to the bird flu outbreak in 2023 and subsequent farm quarantine restrictions
- Breeder revenue increased on higher broiler day-old chick selling prices, due to the higher cost of imported hatching eggs following bird flu in 2023
- Feed input costs decreased on the back of lower raw material costs, and an improved feed conversion ratio benefitting the live bird production cost
- **Broiler production efficiencies** improved significantly following the normalisation of bird age and live weight in June 2023 as the backlog in the slaughter programme following the load shedding crisis was cleared
- The restocking of broiler parent stock lost to bird flu in 2023 was completed

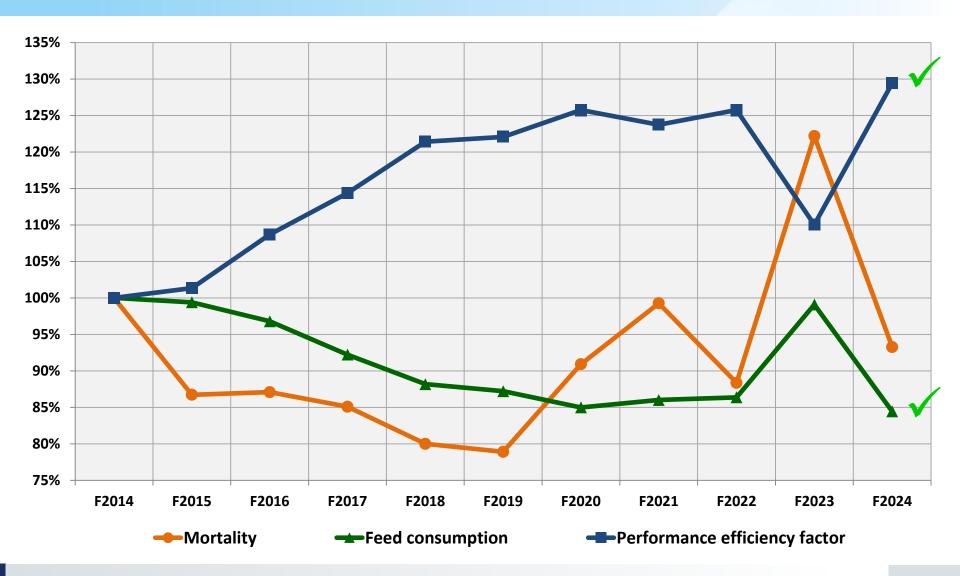

BROILER PERFORMANCE

BROILER PERFORMANCE

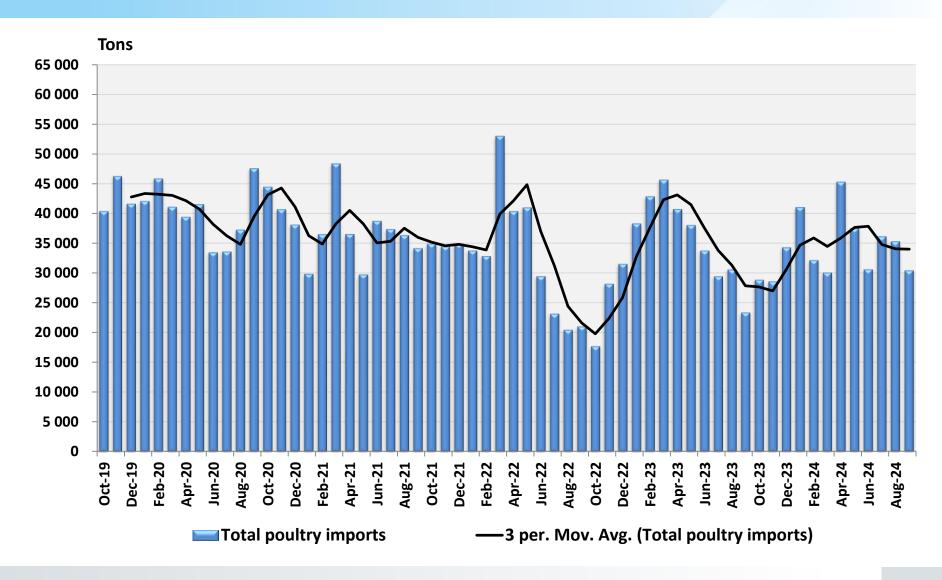

INDUSTRY MATTERS

Gary Arnold
Group Chief Operating Officer

POULTRY IMPORTS

POULTRY IMPORTS

- Based on industry statistics broiler slaughter numbers are approximately
 21.2 million birds per week (July 2024)
- Imports for the period averaged 34 232 tons per month (≈ 6.1 million bpw) being approximately 22% of local consumption (F2023: 33 394 tons per month)
- Import tariff rebate implemented in from January 2024 with permits issued to end March 2024
- Approval for voluntary vaccination against bird flu delayed, as DOA has not approved any permits to vaccinate against the published protocols
- SAPA in the process of a submission to National Treasury to include certain poultry products in the Zero VAT basket

HEPS & DIVIDEND PER SHARE

IN SUMMARY

• **Revenue at R20,5 billion** up 6.4% (F2023: R19,3 billion)

Operating profit at R1 125 million on return to profitability

• Capital expenditure of R275 million at a normalised level

• Cash inflow of R1,1 billion clearing the debt on the balance sheet

• **Dividend declared** of 520 cents per share

OUTLOOK

Chris Schutte
Chief Executive Officer

OUTLOOK

- Bird flu remains a major risk to the local poultry industry, with slow progress towards approval for the vaccination of broiler breeding stock
- Water supply disruptions are of concern, as these have become common place with emergency supply measures being costly
- Constrained consumer spending a key influence on market conditions, determining the supply and demand dynamics going forward
- Competitive retail landscape with extensive chicken promotional activity, placing pressure on selling prices
- Finished good stock levels reduced markedly to manageable levels

OUTLOOK

- Formation of a Government of National Unity may stabilise the economy, and support much needed investment and growth
- **Expected interest rate cuts** may result in improved economic prospects in 2025, and the two-pot retirement reforms could provide a boost to consumer spending
- Weather forecasts reflect a developing La Niña system, with favourable prospects for the local maize crop currently being planted
- Revised capital expenditure programme will assist cash flow in the Group, and support spend on cost efficiency projects
- Spare processing capacity bodes well for dilution of fixed costs and revenue growth opportunities

Q&A

Astral's strategy is to be the BEST COST INTEGRATED POULTRY PRODUCER

in selected Southern African countries

Confirmed March 2022

Dr. Theuns Eloff
Chairman: Astral Foods Limited

PERSONAL MESSAGE

This then concludes my 32nd and final results presentation and roadshow.

Thank you to everybody that has been part of this incredibly eventful journey over the past 40 years.

Carpe Diem!

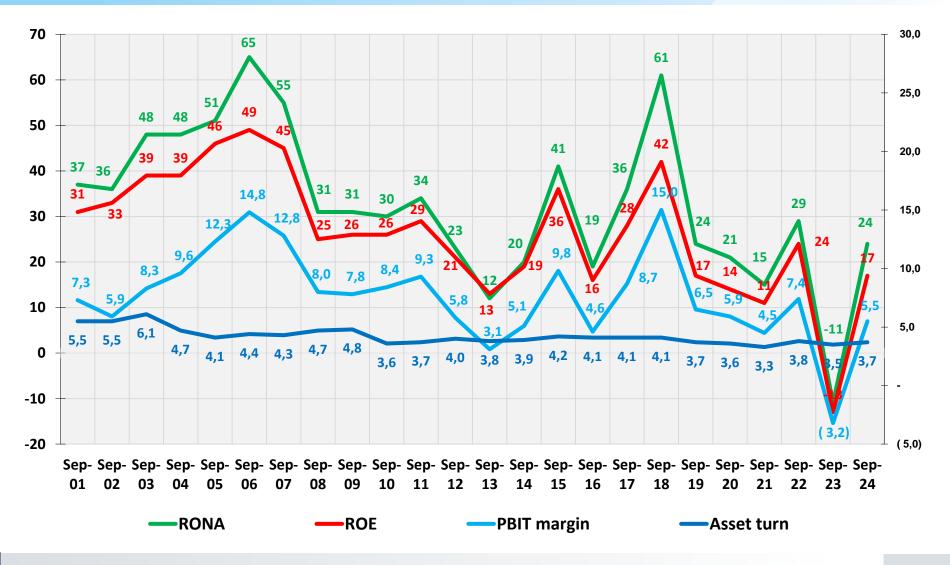

Goodbye and good luck.

~
